JABEE has accredited engineering education programs in Japan since 2001. Listed here are engineering education programs of four-year undergraduate study/education at Bachelor Level, and accredited by JABEE. The institutions have voluntarily requested that specific engineering education programs be evaluated.

Programs are listed under higher education institution and in alphabetical order of Program Titles. The year indicated after respective Program Titles are the academic year when the programs were first accredited by JABEE (Note: Japanese academic year starts from beginning of April and end at the end of following March). Comprehensive review visits are normally conducted at six-year intervals. Programs whose accreditation validity has expired are listed separately. Discipline shows which “Highly Recommended Items by Discipline” in “Criteria for Accrediting Engineering Education Programs” is applied to evaluate the program.

JABEE has been admitted as a full signatory to the Washington Accord since June 2005. Recognition of the substantial equivalency of the accredited engineering education programs by the other signatories of the Washington Accord has been effective since 2005.

Since 2014, JABEE has accredited Engineering Education Programs at Bachelor Level in Indonesia under the Japan International Cooperation Agency (JICA) project to assist Indonesia in establishing the Indonesian Accreditation Board for Engineering Education (IABEE). Four Indonesian accredited programs are listed with a note as indicating oversea programs. Those four out-of-jurisdiction accreditations are not considered as substantially equivalent under the Washington Accord.

JABEE also started Provisional Accreditation in 2014. Programs accredited under Provisional Accreditation are listed with a note accordingly.
