Engineering Education Programs at Bachelor Level Accredited by JABEE Last updated: 27 August 2021

JABEE has accredited engineering education programs in Japan since 2001. Listed here are engineering education programs of four-year undergraduate study/education at Bachelor Level, and accredited by JABEE. The institutions have voluntarily requested that specific engineering education programs be evaluated.

Programs are listed under higher education institution and in alphabetical order of Program Titles. The year indicated after respective Program Titles are the academic year when the programs were first accredited by JABEE (Note: Japanese academic year starts from beginning of April and end at the end of following March). Comprehensive review visits are normally conducted at six-year intervals. Programs whose accreditation validity has expired are listed separately. Discipline shows which "Highly Recommended Items by Discipline" in "Criteria for Accrediting Engineering Education Programs" is applied to evaluate the program.

JABEE has been admitted as a full signatory to the Washington Accord since June 2005. Recognition of the substantial equivalency of the accredited engineering education programs by the other signatories of the Washington Accord has been effective since 2005.

Since 2014, JABEE has accredited Engineering Education Programs at Bachelor Level in Indonesia under the Japan International Cooperation Agency (JICA) project to assist Indonesia in establishing the Indonesian Accreditation Board for Engineering Education (IABEE). Four Indonesian accredited programs are listed with a note as indicating oversea programs. Those four out-of-jurisdiction accreditations are not considered as substantially equivalent under the Washington Accord.

JABEE also started Provisional Accreditation in 2014. Programs accredited under Provisional Accreditation are listed with a note accordingly.

Institution URL Program Title (Discipline) Year of Accreditation Department, Faculty, School or Advanced Course

halion of the Accredited Discipline	
Agricultural Engineering	Agricultural Engineering
Architecture and Building Engineering	Architecture and Building Engineering
Agricultural Science and Engineering	Agricultural Science and Engineering
Biochemical, Biological and Biophysical Engineering	Biochemical, Biological and Biophysical Engineering
	Communication, Computer, Software, and similarly named
	Engineering
Chemical & Chemistry-Related Engineering	Chemical and Chemistry-Related Engineering
Civil Engineering	Civil Engineering
Electrical, Electronics and Communications Engineering	Electrical, Electronic and similarly named Engineering
Environmental Engineering	Environmental Engineering
Forest Engineering	Forest Engineering
Information Engineering	
Industrial Engineering and Management	Industrial Engineering and Management
Multi-Disciplinary Engineering	Multi- and/or Trans-disciplinary Engineering, and
	New-disciplinary Engineering
Mechanical Engineering	Mechanical Engineering
Materials and Metallurgical Engineering	Materials and Metallurgical Engineering
Engineering Physics and Applied Physics	Engineering Physics and Applied Physics
Resources and Geological Engineering	Resources and Geological Engineering
	Agricultural Engineering Architecture and Building Engineering Agricultural Science and Engineering Biochemical, Biological and Biophysical Engineering Chemical & Chemistry-Related Engineering Civil Engineering Electrical, Electronics and Communications Engineering Environmental Engineering Forest Engineering Information Engineering and Management Multi-Disciplinary Engineering Mechanical Engineering Materials and Metallurgical Engineering Engineering Physics and Applied Physics
