Validity Expired Education Programs of All Levels and Categories Accredited by JABEE Last updated: 18 August 2023

JABEE accredits education programs of Engineering at Bachelor Level, Engineering at Master Level, Computing and IT-related at Bachelor Level and Architectural and Architectural Engineering Education at Bachelor & Master Level. Listed here are education programs which are no longer accredited.

Programs are listed under higher education institution and in alphabetical order of Program Titles. The year indicated after respective Program Titles are the academic year when the programs were first accredited by JABEE and followed by final academic year of accreditation when programs discontinued or programs whose accreditation validity have expired (Note: Japanese academic year starts from beginning of April and end at the end of following March).

Only for the limited timeframe, JABEE accredited Engineering Education Programs at Bachelor Level in Indonesia under the Japan International Cooperation Agency (JICA) project to assist Indonesia in establishing the Indonesian Accreditation Board for Engineering Education (IABEE). Four Indonesian accredited programs are listed with a note as indicating oversea programs. Those four out-of-jurisdiction accreditations are not considered as substantially equivalent under the Washington Accord.
